A DISASTROUS FIRE.

San Francisco Suffers a Very Heavy Loss.

THE GRAND HOTEL BURNED.

Other Property Adjoining It Destroyed, Making the Total Loss One Million and a Half Dollars—Several People Overcome by Smoke But No Lives Were Lost—Other Fires.

SAN FRANCISCO, Nov. 4.—Shortly before 3 o'clock yesterday morning fire was discovered under the Burlington house, adjoining the Grand hotel, in the store occupied by Heuter Brothers & Company, dealers in paints and artists' supplies. The flames spread rapidly throughout the basement of the block bounded by Market, New Montgomery, Stevenson and Second streets, and then spread to the first floor, occupied by the Hall Safe and Lock company; Hill & Goldman, druggists' supplies; board of trade rooms; Pullman Palace Car company's office; Great Northern railroad ticket office, and the rooms of the Syndicate investment company.

The smoke in the meantime had aroused the inmates of the Grand and the Burlington hotels, and the frightened guests rushed to the sidewalk with what valuables they could carry. The fire soon shot up through the freight elevator in the rear of the Grand hotel, and a disastrous conflagration was looked for. The general alarm brought the remainder of the fire department to the scene. The front of Hueter Brothers & Company's store blew out with a loud explosion and a large volume of smoke poured out, almost overcoming the firemen.

Jacob Underhill, a wine merchant, was overcome by the smoke in the Grand hotel and was carried out unconscious. Cashier Weeks, of the Grand, who is crippled, was almost overcome when he was assisted out by the elevator boy. There were several other narrow escapes.

By 5 o'clock the fire had spread along the eastern end of the block. The efforts of the firemen to confine the fire within the block occupied by the Burlington and Grand hotels were finally successful. About 6 o'clock the roof of the Burlington fell in, carrying part of that of the Grand, completely wrecking the interior of the Burlington and the front of the Grand on Market street. The western end of the Grand was saved.

The first floor of the Burlington on Second street was occupied by C. H. Virst, millinery and novelties; C. P. Downing, medicines; E. H. Wardwell, window shades. These were gutted, as were also Hueter & Company, the board of trade rooms and the Burr Folding Bed Company's place of business on Market street; the Southern Pacific, the Central Pacific and other ticket offices under the Grand hotel together with Fay's saloon were damaged by water.

The total loss is estimated at $1,500,000. The fire is believed to be due to spontaneous combustion of inflamable materials in Hueter & Company's place of business.

The grand hotel was opened in 1870 and at the time was considered one of the finest hotels in the world. It was four stories high, and had a frontage of 200 feet on Market street. Two years ago about half of the block was leased to other parties and was called the Burlington hotel.

The Grand hotel bar is badly damaged by smoke and water. The fine collections of minerals and exhibits of the state board of trade is believed to be an entire loss.

Carpet and Rug Mill Burned.

PHILADELPHIA, Nov. 4. — For the second time in less than six months Samuel W. White's carpet and rug mill at Front street and Columbia avenue was destroyed by fire yesterday. Mr. White's manufactory was burned on June 23, and he was going to resume work last night after having rebuilt, when the mill was again burned.

The fire started in the basement, which was filled with dyed rug and ingrain carpet yarns, on which the hands were to commence work.

The fire is supposed to have been due to spontaneous combustion. That portion of the mill which was burned was used for making carpet. About seventy-five men and women were employed there. All escaped without difficulty. The loss will be between $75,000 and $100,000; insurance not ascertained.

PIERRE, S. Dak., Nov. 4.—A big band of Sioux Indians are camping on Bad river about three miles from here and are preparing for a big Indian dance and pow wow. An emissary from Standing Rock is among them, having called them together for the purpose of instructing them on the coming of their new Messiah. The Indians are very much excited and expect in a few days that a huge wave of earth thirty feet deep is to pass over the country, which will smother all bad Indians and whites. Allison, an old government scout and one of Buffalo Bill's band, is taking a part in exciting the Indians.

INSURRECTION FROM WASHINGTON.

Our Relations With Mexico According to Gen. Stanley's Other Events.

WASHINGTON, Nov. 4.—Brig. Gen. Stanley, in his report to the war department of the operations of the army under his command, in the department of Texas, has no marked events to record. His soldiers have greatly suffered from fever, which was almost epidemic, but fortunately not a death occurred among his troops. This fever seems to have been occasioned to a great extent by the drouth, which dried up the streams and water holes. In this connection Gen. Stanley says that exchanges of troops into the department of Texas should be made in the fall season so that they can become acclimated before the summer season.

As a rule, he says, the relations with our Mexican neighbors have been friendly and the Mexicans appear to be anxious that no violations of international law should occur, but at times infractions are made by revolutionists crossing the frontier and using the left bank of the Rio Grande as a colgn of vantage to scoop down on the Mexican authorities. This occurred in June last when Capt. Steevers captured, on information furnished by the United States consul at Laredo, Gen. Sandoval and a number of revolutionists. At the time of their capture, they were hiding in the high grass along the banks of the Rio Grande, and were all nearly naked, as they were on the point of swimming the river. These prisoners are still in jail awaiting trial.

Attention is directed to the fact that much lawlessness and many shocking murders have occurred in the territory south of the Southern Pacific railroad. In most cases the murderers are Mexicans, who, after committing these crimes, escape to Mexico. While it is a delicate question to determine whether the matter of preventing this lawlessness and crime is a subject for the state police or United States military to handle, Gen. Stanley says he has made arrangements to establish a patrol of the Rio Grande river in hopes of preventing such crimes in the future.

Contrary to popular belief on the subject, government mules in Texas grow old and die, and Gen. Stanley urges that younger and more efficient animals be supplied to replace those now in the service, and to fill the ranks that have become depleted by death.

He notes as a peculiar effect of the climate on the soldier, that now with excellent quarters fever prevails to a great extent among the soldiery, while twenty years ago when they lived in tents, a sick soldier in Texas was a rarity.

Waiting for the New Justice.

WASHINGTON, Nov. 4.—Chief Justice Fuller announced in the supreme court of the United States yesterday that the court had decided to wait until Justice Miller's successor had taken his seat before hearing the case of the inter-state commerce commission vs. the Baltimore and Ohio Railroad company, involving the right of railroad companies to give reduced rates to theatrical companies. The Baltimore and Ohio company allowed rates to theatrical troops and the interstate commerce commission brought the matter into court on the ground that it was a violation of the inter-state commerce law. The lower court decided against the commission and the case was carried to the supreme court.

The decreases were: Gold certificates $19,960,760. National bank notes $1,157,50?; silver certificates $1,115,0.0. The total circulation on Nov. 1, past is placed at $1,49?,0?7,617, against $1,414,121,129, on Nov. 1, 1889, an increase during the past twelve months of $83,?76,3.?.

ON A STEEP GRADE.

An Express Train Crashes Into a Coal Train.

CAUSED BY AN OPEN SWITCH.

The Engineers and Firemen of Both Trains Instantly Killed, Their Bodies Being Buried in the Wreck—The Passengers Fortunately Escape Serious Injury Except One Lady.

SYRACUSE, N. Y., Nov. 4.—The express train that left New York on the Delaware, Lackawanna and Western railroad 9 o'clock yesterday morning and was due at 5:35 yesterday evening, while descending the steep grade near Rock Cut, three miles from this city, crashed into a coal train standing on a switch and waiting for the track to be cleared for the passage southward. Both locomotives were completely wrecked and the baggage and mail cars were crushed to pieces.

Of the other cars on the passenger train, four in number, three were thrown from the track, the force of the collision hurling them into a position almost at right angles with the rails. The single Pullman car, which was next to the mail car, kept its place.

Michael Burke, of this city, engineer on the passenger train, and J. W. Doyle, of Great Bend, Pa., engineer on the coal train, were killed outright with their firemen, Jerry Lee, of this city, and Merton Fernan, of Great Bend.

The four men were buried under the wreck. Doyle was dug out immediately by the train hands with the assistance of some of the passengers. The other three bodies remained in the wreck several hours.

As by a miracle, none of the passengers were killed, and only one of them—Mrs. Thomas Corcoran, of No. 21 Myrtle avenue, Buffalo, was seriously injured. Mrs. Corcoran was on her way home from Portland. She had two ribs broken and her right wrist was dislocated. She also sustained severe injuries to her spine, and her left shoulder was badly bruised. She is now at St. Joseph's hospital in this city and her chances of recovery are very doubtful.

Michael Tierney, of Great Bend, Pa., head brakeman on the coal train, was also badly injured. At the time of the collision he was in the cab with Doyle and Fernan, waiting for the passenger train to pass. He was buried in the wreck, but was got out in a few minutes. Tierney was so badly scalded that the skin peeled off from his right side and hip. His face and head were bruised, and his right knee was seriously injured. It is thought that he may recover.

A. E. Kimball, of Oswego, N. Y., a brakeman on the passenger train, and W. H. Coppernull, of the same place, were buried under the baggage car, but neither was seriously injured.

C. C. Darby, of Cortland, N. Y., a postal clerk of Syracuse, president of the State Liquor Dealers' association, sustained slight injuries.

The wildest excitement prevailed for an hour or two after the news of the disaster reached this city, owing to the fact that the railroad authorities telephoned that the cars had caught fire and asked the assistance of the fire department. This information happily proved to be erroneous.

Among the passengers was Henry Weston Edwards, of London, England, the famous traveller who has made the circuit of the globe three times and who accompanied Nellie Bly on a large part of her record breaking journey. Mr. Edwards, who is on his way home from China, left here yesterday evening for New York, where he will take steamer to-morrow afternoon for Europe.

The accident was caused by a misplaced switch. The switchman, it is said, had been in the employ of the company only since Oct. 29.

TWENTY-ROUND FIGHT.

A Rough and Tumble Affair for a Purse of $1,000.

MINNEAPOLIS, Nov. 4.—The fight between the Black Pearl, of this city, and Kelleher, of Boston, for a purse of $1,000, occurred last night at the Twin City Athletic club rooms, and was awarded to the Pearl in the twentieth round. There was very little fighting done. In the first seven rounds not a blow was struck.

In the eighteenth there was a rush made by the Pearl, and in the breakaway Kelleher claimed the Pearl fouled and seriously injured him in a sensitive part of the body. While bending over he was hit in the stomach. Both fouls were disallowed. In the twentieth the Pearl chased Kelleher around the ring, and, hitting him a light blow, Kelleher went down. He was carried to his seat and physicians called, who certified to the truth of his condition.

CAPTAIN ALLEN'S STORY

He Gives a Graphic Account of the Recent Ocean Disaster.

PHILADELPHIA, Nov. 4.—Capt. John Allen, of the ill fated coastwise coal schooner Cornelius Hargraves, whose collision with the Spanish passenger steamship Vizcaya off Barnegat Thursday night resulted in the sinking of both ships and the loss of many lives, arrived in the city yesterday. To a United Press reporter Capt Allen gave a brief story of the great marine disaster and repudiated all reports that he had not done his full duty as the commanding officer of the Hargraves.

When he arrived at the offices of Samuel J. Goucher, 218 Walnut street, there were many friends to greet him. After several minutes of handshaking, the captain of the ill-fated schooner excused himself, stating that he wanted to don some better clothes. When a United Press reporter approached him about the disaster, Capt. Allen said he had read the statement of his first mate Perring in the newspapers, and it was in substance just what he would give as the cause of the disaster.

"I think my first mate's account of the collision is mainly correct," continued he, "but I can't say that I agree with him regarding the action of the Vizcaya's officers. My opinion is that there was not any lookout on the Vizcaya at all. The disaster was due to the carelessness of the officers on the Spanish steamship. Just who was culpable may never be known. So far as I am concerned I adhered to maritime law and did my duty to the letter. If there had been a lookout on the Vizcaya I really don't see how there could have been a collision. We saw the green lights of the steamer several miles away, about a half hour before the disaster occurred. Our red lights, which were in perfect order were burning.

"When Perring informed me a steamer was in sight I went on deck. The steamship was running at twelve knots an hour and we were going along at about seven knots. Being a sailing vessel and on the starboard side, we had the right of way. The steamer pressed down upon us. Feeling that something was wrong, I took an extraordinary precaution of having a torch waved, but the steamer kep bearing down upon us. Then I jumped for the steam whistle and sounded it. Here the Vizcaya people seemed to realize the danger and the steamship's course was changed, but it was too late. Both vessels were so large that neither could veer about in an instant. We struck her amidships. That's how it all happened. It was gross carelessness on board the Vizcaya."

MURDERED BY THIEVES.

Constable Mateer, of Tarentum, Pa., Dies Discharging His Duty.

PITTSBURG, Nov. 4.—Constable Harry Mateer, of Tarentum, seventeen miles east of this city, was murdered at that place last night by thieves. At 8:30 o'clock three thieves broke into the tailoring establishment of Biehl Brothers in Tarentum. They were surprised by the son of one of the proprietors of the store, who gave the alarm and the thieves broke out a side door each with an armful of clothing and ran towards the river.

Constable Mateer was notified of the theft, and with a party of citizens went in pursuit of the robbers. At Peterson, a half mile below this city, Officer Mateer boarded the Blairsville express on the West Pennsylvania railroad to look for the thieves, and as he walked into the smoking car the thieves recognizing him jumped off the train with Mateer after them. He caught one of the men and struck him with a billy. As he did so the thief shot at him, the ball striking one of his pants buttons and causing a slight flesh wound. Mateer pulled his revolver and shot another of the men who came up at this moment, and as he did so he was struck again by a billy and rolled into the ditch.

The third man came up at this time and shot the prostrate officer, the ball striking him at the base of his spinal column, from the effects of which he slowly sank, dying at 10 o'clock. All this happened inside of a minute. The trainmen and some passengers rushed to the rescue of Mateer, when the murderers ran away. They have not yet been captured. Great excitement prevails in Tarentum, and searching parties are out all along the West Pennsylvania railroad from Allegheny City to Tarentum in search of the murderers.

Officer Mateer captured Alex. Killane, who was lately convicted of the murder of Mrs. Paul Rudert.

A Big Court Docket.

WINCHESTER, Ky., Nov. 4.—Circuit court convened at this place yesterday with the largest criminal docket ever known in the history of Clark county. There are twenty-four indictments for murder, or confederating to murder, docketed for trial. These cases are not for offenses committed in the county, however, but are all cases transferred by Judge Lulz from Perry county for trial here, and all grew out of the feud which waged for years in Perry county, principally between what is known as the French and Eversole factions.

Making Death Doubly Sure.

RONDOUT, N. Y., Nov. 4.—The wife of Erastus L. Clark, editor of The Daily Freeman, committed suicide yesterday by taking laudanum and corrosive sublimate. The lady has been a confirmed invalid for years from rheumatism, and this is the supposed cause for the rash act. She was 59 years of age.

A DISASTROUS VOYAGE

That of the Resturion From Java to Boston—Fever on Board.

BOSTON, Nov. 4.—The iron steamship Resturion hailing from Liverpool, under charter of the Furness line arrived here Sunday from Java with a cargo of 2,?00 tons of sugar. She was two weeks overdue, having been sixty-two days out. At Java fever broke out among her crew, six of whom died. At Port Said six of the crew were sent ashore with fever and at Aden six more were sent to the hospital. A number of Arabs and Chinese were shipped to work the vessel to Boston. They were not thorough sailors, and the ship was handled with difficulty. On Monday last, about 6 p. m., when 200 miles south of Grand Banks the vessel shipped a heavy sea which threw William Hughes, the steward, against the cabin door, smashing his leg. The next day gangrene set in. Hughes was taken to the Massachusetts general hospital. He is not expected to live.

Death of a Noted Horseman.

KANSAS CITY, Nov. 4.—William J. Williams, 25 years old, employed at the stock yards, died at 11:30 in Armourdale of the effects of injuries received in a runaway last Saturday evening. Williams was riding a horse on Hickory street near Twelfth. He was run into by a buggy and thrown off his horse. His head struck the curbstone, fracturing his skull. Williams was noted for his daring feats of horsemanship, and was at one time a member of Buffalo Bills Wild West show.

Loss of Vessels.

GLOUCESTER, Mass., Nov. 4.—The annual report of the loss of vessels from this port for the year just published, shows that eighteen vessels have been lost on which there was an insurance of $95,?28. The number of lives lost is eighty-six. During the previous year there were fourteen vessels lost with an insurance of $50,504. The number of lives lost was seventy; 85 per cent. of the men lost were foreigners.

A Traveling Derrick Falls.

PITTSBURG, Nov. 5.—A traveling derrick on a trestle work on the Ohio connecting bridge above Preble avenue, Allegheny, fell yesterday from a height of thirty-five feet. Jerry Anderson, Robert Boyd and James Cosgrove, who were working on the derrick, fell to the ground amid a mass of broken timbers. Two of the men—Boyd and Cosgrove—were badly injured and their death is feared.

Dangerous Plaything.

LOUISVILLE, Nov. 4.—James Sumton, aged 13, accidentally shot himself through the heart at his home at Glasgow, Ky., Saturday with a revolver which a sister had left in a buggy. His father was so wrought up that he became insane and a sick sister has become so much worse from the shock that she may die.

A Prisoner's Attempt at Suicide.

JOLIET, Ill., Nov. 4.—The Polack assassin from Braidwood, Joseph Novak under sentence of death, tried to batter his brains out in his cell yesterday during a brief absence of his keeper. A physician was called, who sewed up the wound in the culprit's head and said he would recover.

Cave-Filled Pot.

KANSAS CITY, Nov. 4.—At the old Rupert homestead, just west of Argentine, Kan., John Rupert and James Halloway were excavating for a foundation for a barn, when they struck an iron pot

The Hold-your-sos will be on deck to-night and tomorrow. There are a great many of them. Of course they know, but they don't say a word till the votes are known.

It is a pleasure to note that the Presbyterians have decided to build a new church building. There is nothing definite yet, of course, but we know we can look for a fine building. Marion has long been behind in church edifices, but is now coming to the front.

The Upper Sandusky Union is promising a literary treat in a view of that city an hundred years hence, a la Bellamy. This may be all right, but Marion people who want a view of an hundred years ago drop into the Upper Sandusky of today.

The estimate of the majorities by counties in this Congressional district is as follows: Democratic—Seneca 950, Marion 850, Wyandot 700; republican—Union 1150, Hancock 275. Thus on the face Mr. Hare would seem to be elected by nearly 1100. It would not be wise to count on that too strongly however. Mr. Hare won't have that big a plurality. He will be lucky if he is elected.

Our friend Copeland, of LaRue, is willing to risk his reputation as a guesser on the prediction that the republicans will carry the state and elect ten congressmen. The state ticket will be all right of course, but the election of ten republican congressmen is too strong a claim. McKinley has made a gallant fight, but we doubt if he is elected. There are prospects of Foster's election and hope for Burton and Storer, but wishes are too often fathers of thoughts to make reliable predictions.

The Logan County Index argues that the raising of $100,000 by Bellefontaine to secure the Big Four machine shops will cost the taxpayers of that city nothing at all at all, because if the shops are once voted for the consequent increase of the tax duplicate through the erection of new buildings for the workmen and the rise in value of existing property, will of itself pay off the indebtedness. This is one way of looking at the matter. People don't usually obtain a good thing without paying something for it; but the argument of the Index is not devoid of good sense. Judicious outlays do sometimes more than pay for themselves.—Ohio State Journal.

Here is a whole sermon for Marion that ought to be preached in an attractive way ever day. It is true that industrial outlays more than pay their own way. Marion has realized this very fact though she has never spent a dollar for industrial purposes that was raised by tax. But the time may come when she will. Marion must move foreward, and if men of means do not interest themselves the masses in Marion will suggest the Bellefontaine plan. It is well enough to think of these matters.

In Mrs. Ogden Goelet's drawing room are lace curtains which once adorned the palace of the Empress Eugenie. They were purchased at an almost fabulous price. Inside of these hang tapestries from eastern looms which are worth far more than their weight in gold, and could not be duplicated.

STRANGE TALES.

A white rabbit with long, woolly hair was caught recently by J. S. Fleshinger, of Morrellville, Pa.

A young woman at Ashland, Wis., after suffering four years from what was supposed to be consumption, coughed up a shingle nail.

Eddie Condon was killed near Midland, Mich., by a runaway team. The same horses killed his father in the same way a few weeks previously.

A horse belonging to W. Stuart, of Ballyhaderreen, Ireland, jumped through an open window 3 feet high by 2 feet 2 inches wide. The horse is 16 hands high.

In Berlin, in response to the public demand, a special horse meat restaurant has been opened there at 22 Weinberge strasse, and the number of custom rs is very large.

It is asserted that the ghost of Bartholomew, hanged at the Penn county (Pa.) prison for the murder of Washington Dillard, visits the jail the first night following each new moon.

At St. Augustine, Fla., a strange fish was caught. It measured two and a half feet in length, was of the exact color of silver and had fangs like those of a rattlesnake. It moved swifter than ordinary fish.

A Stevensville (Mich.) swan was struck by lightning, and, although he knew the house was burning up and he would be roasted, he could not move a muscle. He was discovered by his friends in the last stack of time.

A woman 65 years old gave birth to twins at Millville, Pa., recently, and on the same evening the horse of her daughter in an adjoining township, and her cat in Bradford, were also blessed with twins.

William Hight's valuable setter dog committed suicide at Wadsworth, Ohio, recently, because he had been reprimanded. The mode the dog adopted was to butt his head against a stone wall until he broke his neck.

Heathen nations have different legends as to the origin of woman. The Japanese believe that she was created after the Japanese, while the Persians say she fell from the heaven and the Africans that she was made of coal.

CHARACTER IN EARS.

The form or size of the ear of a man or woman indicates a characteristic tendency.

In human beings of a low or delusional mental standard the ears are large and flabby, as in cretins and idiots.

When there is no lobe and the ear widens toward the top, it indicates cunning, selfishness and a revengeful disposition.

When the ear is extended and slightly but distinctly marked, a keen shrewd, combined with great sensitiveness, is always to be found.

Large and prominent, with a meat lobe and broad, but not long, it indicates a well balanced character, capable of success in a subordinate position.

—Tom Hodder came in from Chicago today to vote and greet old friends.

—Jack Ryan, who is attending the Cincinnati Law school, came home to vote and spend a day or two with friends.

—E. T. O'Kane was up from Delaware Monday advertising the Clarence Eddy organ concert to be given in Delaware next week.

—Miss Miller, of Lydie, O., is in the city today, representing Mr. French, the florist, and spending a few days with Mrs Hatch, on South street.

—The democracy will hold forth tonight at the basement of the court house, and the republicans will receive election returns at City Hall, as it is understood.

—There is much joy at the home of Mr. and Mrs. T. P. Watkins, on south Pearl street, over the arrival of a baby daughter, to add further gladness to the family circle.

He Was a Democrat.

A young voter stepped proudly up to the polls this morning and exercised his right as a free American citizen. Returning to some of his friends he remarked that he had "just voted a good old straight democratic ticket; but," he remarked, seeing a colored man approaching the polls, "there goes a nigger to vote the republican ticket when he ought to vote with the other side." "And why should he do that?" asked a bystander. "Because," remarked the fellow, "didn't Jeff Davis free the niggers, and wasn't Jeff Davis a democrat?" And nobody thought it worth while to enlighten him.

THE LOCAL ELECTION.

Indications That the Vote Will Not Reach That of Last Spring—Comparatively Quiet, With Some Effective Scratching.

Up to the hour of going to press the local election had progressed very quietly, without much demonstration. The evidences at this time are that there has been enough scratching done to create a surprise, most of which will be in favor of Beale. Some republicans have expressed a feeling, that Mr. Beale would really pull through with an election, while the democrats acknowledge that he will make inroads on Mr. Schultz's majority.

The various wards had polled up to 2 o'clock the following vote, which was lighter than that of the spring election at the same hour First ward, 410; Second ward, 241 Third ward, 381; Fourth ward, 330. The poll books of the various wards show the full vote to be nearly as follows First, 650; Second, 380; Third, 421; Fourth, 460. The final rush was expected to bring in the bulk of the balance, but it is still believed the full vote will not be cast.

Fraternal Mystic Circle.

Members of Fraternal Mystic Circle are urged to be present at the Regular meeting on Thursday night, Nov. 6, at 8 o'clock prompt. Some of the supreme officers will be present, and delegates to supreme body will be elected that night. Let all be present.

A rather extraordinary project for power distribution is at present under consideration in Saxony, Germany. It is proposed to establish near the city of Dresden an immense electric central station to furnish high tension currents for lighting and power to 168 small towns and villages in the territory circumscribed by the towns Meissen, Friedberg, Pirna, Schandau, Sebnitz and Radeberg.

Hardly any English people intend to pass the coming winter in India. The annual rush of the last few seasons has been stopped for the time by the outbreak of cholera in Arabia, from which cause Egypt is also likely to suffer severely, as many people who were intending to winter on the Nile are frightened, and consequently have changed their plans.

A Husband's Mistake.

Husbands too often permit their wives, and parents their children, to suffer from headache, dizziness, neuralgia, sleeplessness, fits, nervousness, when by the use of Dr. Miles' Restorative Nervine such serious results could easily be prevented. Druggists everywhere say it gives universal satisfaction, and has an immense sale. Woodworth & Co., of Fort Wayne, Ind.; Snow & Co., of Syracuse, N. Y.; J. C. Wolt, Hillsdale, Mich.; and hundreds of others say "it is the greatest seller they ever knew." It contains no opiates. Trial bottle and fine book on Nervous Diseases, free at Denison & Co. and Hohberman & Co.

Folding Napkins by Pattern.

Commercial enterprise has entered a fresh field in the recent issue by a New York firm of paper patterns for folding table napkins. This art has up to this time been relegated to the butler's and parlormaid's repertoires, and competency or the reverse in its accomplishment has frequently been one of the tests of eligibility to service. Now, however, this is done away with, and the mistress of an establishment may have the knack at her finger ends to teach the merest novice in her employ. It is a question, however, if this universal knowledge will not deprive fashionable tables of one element of individuality now imparted by the exclusive napkin lore of some treasure of a "Jeems" or Martha.—New York Times.

A STEP FORWARD

The City Council Takes Favorable Action on the Proposition for a Fire Alarm System Policeman Rhul's Successor Appointed Other Business of the Regular Session.

The mayor and clerk and all members of the city council were present Monday evening at the regular meeting session. There was not a preponderance of routine business and a notable absence of street and alley work. Interest called attention to plank walks being put down in defiance of the ordinance providing for stone. He championed the cause of the widows and asked the whys and wherefores. The new plank walk on south West street, between Center and south streets was cited as a special violation of the ordinance. The street and alley committee asked for a resolution authorizing the construction of stone walks in such instances, but after considerable discussion it was decided that the committee had all the authority it needed in the sidewalk ordinance, and was instructed to look up violations.

The question of street lights for dark and dangerous places was discussed, and the matter given into the hands of the committee on street light and gas with power to act. The Electric Light Co. now running to the full capacity of its two dynamos, it is likely that those places will be provided with gasoline lamps.

Crushed stone came in for considerable attention, which resulted in the passage of a resolution for the purchase of 700 cubic yards of screened crushed stone, at a price not to exceed 65½ cents The stone is to be used chiefly on Vine street, and the purchase was urged by Porch.

The committee on accounts had a whole basket full of bills, most of which were ordered paid without objection. Roberts, however, made his regular conscientious kick on the police bills, and on the vote was seconded by Blake. The bill of Charles Berringer was ordered paid, after the deduction of $3 wrongfully retained from the impounding of stock. Chairman Leiller, of the sewer committee, reported an estimate of sewer construction and a bill therewith, which was ordered accepted by motion of Roberts.

A resolution was adopted providing for the purchase of ten rubber coats and hats, for the use of the hook and ladder company

The committee appointed to consider the purchase of a fire alarm system for Marion made its report. The committee recommended the purchase of a non-interfering system, and in favor of inviting competition. The report was readily and enthusiastically accepted.

The reports of the mayor and treasurer were read, accepted and placed on file.

John Acker was recommended and appointed by the mayor as successor to Policeman Rhul, deceased. The appointment was confirmed by motion, without a dissenting vote.

Council adjourned until one week, Nov. 10.

A BOGUS TELEGRAM

Causes a Little Excitement and Blows, but Results in Apologies.

A telegram purporting to be from Master Workman Brown, of the Knights of Labor of Northern Ohio, was being circulated Monday among shopmen and laborers, by a man named Hughes. The telegram was an urgent request to vote for Foster H. F. Snyder, the Western Union Telegraph manager, was afterwards approached to discover if the telegram was genuine. Mr. Snyder at once pronounced it a forgery, and immediately got out dodgers so declaring himself, and also stated that the blanks had been stolen from the Western Union office. About 7 o'clock Snyder and Hughes met on the street, and the latter objected to the statement that the blanks had been stolen, reflecting upon himself. In course of the argument Hughes struck Snyder with his cane, but further trouble was averted. Hughes afterward met Snyder and apologized for his action, but still denied any knowledge of the theft of the blanks Thus the matter was adjusted and no arrests were made.

The Rinehart Co.

[Eaton, Pa., Courier.]

The large attendance during the past week at the Arie opera house ought to convince Manager Brunt or what line of amusements meets the playgoing public's taste. Big Four Changes.

There will be important changes in the train service of the Big Four November 16. On that date all trains between Cleveland and Cindinnati, with the exception of the Southwestern limited, will begin running via Columbus. This will give five through trains each way a day. A large force of men is now at work on the road between Columbus and Springfield repairing track and strengthening bridges and trestles. Two interlocking signals are to be put in and as soon as this is done the Southwestern limited will be run through Columbus also. The distance by the new line will be nineteen miles greater than at present and trains will have to be scheduled at a high rate of speed to give the service demanded by the public. Ticket collectors are to be put on all trains between Cleveland and Cincinnati with the inauguration of the new train schedule. The conductors of the trains will run between Cleveland and Columbus and Columbus and Cincinnati, but the ticket collectors will run through. The officers of the Big Four are well satisfied with the system of having tickets collected by persons other than conductors, and it is understood ticket collectors will be eventually placed on all trains on the system.

Chrysanthemum Reception.

A chrysanthemum reception will be given Friday evening, Nov. 14th, at the residence of J. J. Hane by the young ladies of Mrs. Wallace's Sunday school class. A fine collection of plants in bloom and in all the varieties in addition to cut flowers will be on sale. Luncheon will be served during the evening. These young ladies, with the result of their own exertions are paying for the large circular window in the front of the new church, and they earnestly solicit the patronage of their friends. The small sum of 15¢ will be charged for the lunch Don't forget the date.
